## HEMLOCK PLANTS --- CUTTING GROWN

NOV 7 - 1956

U. S. Department of Agriculture

The following hemlock varieties are all worth while mutations of the common hemlock (*Tsuga Canadensis*) I have several other forms in small quantities. Prices are cash and carry and depend mostly on age of plant about \$1.00 per year.

Alba spica - La Bars	Fontano
" " - Morris Arboretum	Fremdii
Angustifolia	Horsford's dwarf
Armistice dwarf	Hussii
Atrovirens	Jenkinsii
Aurea	Jenkin's juniper like dwarf
Beau Jeanii	" low spreading
Bennett	" many stems
Cinnamomea	Macrophylla
Cole's prostrate	Pomfretii
Columnaris or Harmon	Rugg's Washington dwarf
Curtis ideal dwarf	Sergents weeping
" large leaf	Stranger's dwarf
" latifolia	Taxifolia
" spreading	Young cone - ever coning dwarf
Dawson	Von Helm's dwarf
Doran's dwarf	W 26 globose dwarf
" prostrate	W 36 juvenile foliage

I also offer:- *T.caroliniana* type and two varieties, *T.Mertensiana* - the mountain hemlock, *T. heterophylla*; and the oriental varieties *T. Chinensis*, *T. Sieboldii* and *diversifolia*.

Please make appointment by phone or by letter -- I am not always at home.
